

SAFETY POLICY

At RAND POLYPRODUCTS PVT.LTD., we are committed to the Health and Safety of our employees and to protecting the natural environment. We choose to proactively identify and carefully manage the environmental, health and safety aspects of our activities, products and services.

All our products are designed and manufactured to the environmental and regulatory standards of our state and country. Work will be carried out with utmost care, giving due consideration to safety which shall not be compromised under any circumstances. We are committed to pollution prevention, regulatory compliance and continual improvement.

OUR VISION

Our vision is an injury free organization.

OUR MISSION

Bring safety as a priority for all employees and will link it with all processes. We will realize our vision with Safety Management approach that focuses on People, Processes and Systems by continual training and cultivating good habits of cleanliness and planning.

SAFETY PRINCIPLES

- All injuries and occupational illness are preventable
- All operational exposures can be safeguarded
- Safety evaluation of all processes
- Working safely is a condition of employment
- Training all employees to work safely is essential
- Management audits and mock drills are a must
- Employee involvement is essential
- All deficiencies must be reported and corrected promptly.
- Comply with requirements of all relevant statutory, regulatory and other provisions
- Provide and maintain safe and healthy workplace through operational procedures, safe systems and methods of work
- Develop awareness to protect all employees from foreseeable work hazards
- Ensure that appropriate resources are available to fully implement Health and Safety policy and continuously review the policy relevance with respect to legal and business development
- Reduce energy consumption of our operations by employing conservation technology and by reducing or eliminating energy intensive processes
- The Management sincerely believes that accidents are preventable and aim to achieve 'ZERO ACCIDENT LEVEL'.
